

MORE INNOVATION LESS RISK

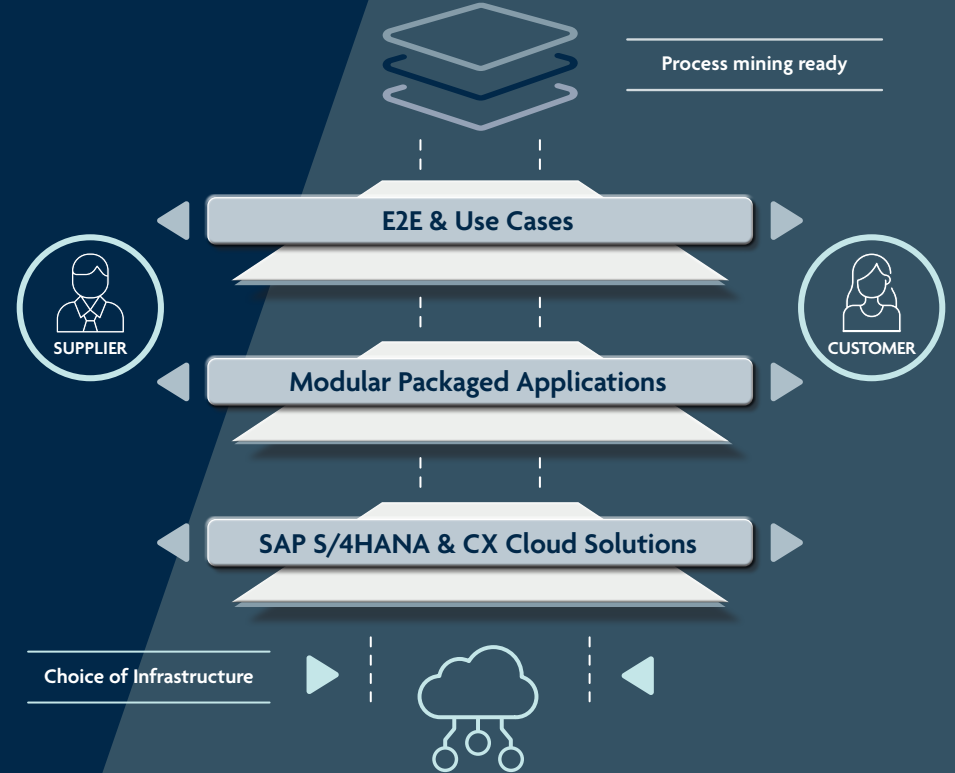

KPS Instant Platform – Get a head start on
transforming your retail processes

BEYOND S/4HANA: KPS INSTANT PLATFORM

Do you want to bring your retail processes up to date? Are you planning to introduce or switch to SAP S/4HANA and looking for ways how you can manage the transformation of your retail processes in the best possible way?

We can help you make your project a success – quickly, cost-effectively, and reliably. With the Instant Platform.

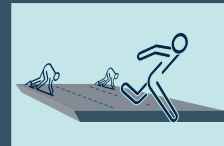

KPS INSTANT PLATFORM: A PRODUCT READY FOR IMMEDIATE USE

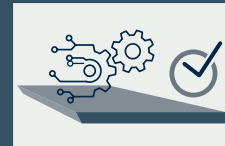

With the „Instant Platform“, KPS provides you with the process flows of a typical retail company from a single source. This gives you a tool with which you can get to know the new system environment, model the ideal processes in SAP S/4HANA and other applications or even plan, test, and implement them securely directly in your system environment. For the first time, all end-to-end business scenarios and 67 industry-specific use cases for retail – from the operative core business to customer-related interactions and finances – are immediately accessible on a single platform.

For future-oriented retail processes. For a secure and fast SAP S/4HANA transformation. For your head start!

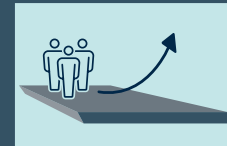

YOUR ADVANTAGES

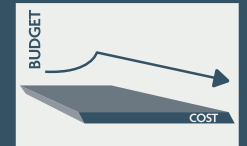

Jump Start

Safety

Know-how

Cost-efficiency

Simply Faster: We have already pre-conceived and implemented a large number of the retail scenarios in SAP S/4HANA. So, with out-of-the-box processes and applications you don't start from scratch – but with a head start.

Simply Safer: The Platform's best practices, process documentation and test automation allow you to avoid typical errors from the outset and thus create a particularly low-risk transformation.

Simply Smarter: The KPS Instant Platform provides retail-specific training materials, guides, click dummies and learning opportunities for the most important use cases – for users to learn and try out directly in the system.

Simply More Economical: The costs of transformation become calculable thanks to reliable product pricing. So, you save money and get something in addition: more predictability.

WHAT THE KPS INSTANT PLATFORM CAN DO FOR YOU

The KPS Instant Platform enables you to transform the entire retail process – from the operational business process to the customer journey – quickly, cost-effectively, and securely.

- / 300+ true end-to-end integration scenarios across systems
- / 67 industry-specific use cases
- / Best-practices guides and training materials in SAP Enable Now
- / End-to-end process documentation in Signavio
- / Auf SAP S/4HANA-based business scenarios and fully integrated processes into the finance and logistics world
- / Fully integrated POS solution (optional)
- / Numerous interfaces into the CX product world
- / Extendable by retail-specific microservices

CHOOSE YOUR PATH

The KPS Instant Platform is suitable as a **learning and training platform**, both for your IT team and your business team, as well as a **modelling and prototyping tool**. Three different editions are available.

EDITION S

Learn & Train

Runnable SAP S/4HANA trading system with end-to-end **business processes**.

You can post in it (without customizing)

Technically a **clone**

Hosted in the **KPS Cloud** – ready to use

EDITION M

Model & Prototype

System design with end-to-end processes in SAP S/4HANA from **business processes to the customer journey**

Configurations and developments are possible

You can create a model of your retail processes

Hosted in the **KPS Cloud** – ready to use

EDITION My

Prototype, Migrate & Individualise

Comprehensive solution with end-to-end processes in SAP S/4HANA from **business processes to the customer journey and microservices**

Build a prototype as the basis for implementation in the **Clean Core**

Customer-specific configuration

In your own system environment **on-premise or in the cloud**

You want to start by getting to know the system and are not sure yet if you might want to move on to modelling and individualising later? No problem! You can still take the next step later. Talk to us to find out how that could work for you? We happily guide you through your options.
